About ADARx Pharmaceuticals
ADARx Pharmaceuticals, Inc. is a late-clinical stage biotechnology company focused on developing next-generation RNA therapeutics designed to treat a broad spectrum of diseases. We are focused on advancing and expanding our pipeline of highly potent, selective and durable siRNA therapeutic candidates, including three clinical-stage programs and two advanced preclinical programs. Our three hepatic-targeted programs are agazisiran, onvuzosiran and ADX-626, and our two extrahepatic-targeted programs are ADX-077 and ADX-199. Beyond our named programs, we plan to continue to leverage our proprietary technologies to strategically expand our pipeline of next-generation siRNA therapeutics. Our goal is to control the expression of specific disease drivers with highly selective RNA targeted therapies, delivering life-changing treatments for patients with urgent unmet medical needs.
